

Mohammad Shahbaz Alam

Frontend Developer

shahbazalamjobs@gmail.com | +91 7769062568 | linkedin.com/in/shahbaz-alam | github.com/shahbazalamjobs | Pune

SUMMARY

Frontend Developer with 1.5 years of internship experience building responsive, production-grade web applications using React, Next.js, and TypeScript. Skilled at translating Figma designs into pixel-accurate, cross-browser interfaces and shipping full-stack SaaS features including authentication, search, and admin dashboards. Comfortable working across the stack with Node.js, PostgreSQL, and Prisma.

SKILLS

Languages	C/C++, JavaScript (ES6+), TypeScript
Frontend	HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap, Redux Toolkit, Shadcn UI, React Hook Form, Zod
Backend	Node.js, Express.js, REST APIs
Databases	PostgreSQL, Prisma, Supabase
Tools & Auth	Git, GitHub, Postman, Figma, Clerk, JWT Authentication
Concepts	Responsive Web Design, Cross-Browser Compatibility, SEO, AI-Assisted Development (ChatGPT, Claude, Claude Code, GitHub Copilot, V0)

EXPERIENCE

Frontend Developer Intern

Jul 2024 – Jan 2026

Onlighten Media

Selected Work: CatchEveryCall AI

- Converted Figma designs into pixel-accurate, cross-browser compatible web pages using **HTML5, CSS3, JavaScript, and Bootstrap**.
- Built and maintained frontend interfaces for **SaaS applications, landing pages, and business websites**, delivering consistent user experiences across devices.
- Shipped 7+ production-ready landing pages and sales funnels for SaaS products and client websites, improving page performance and supporting lead generation.
- Partnered with UI/UX designers and backend developers to deliver visually consistent, production-ready web solutions.
- Improved layout consistency and compatibility across modern browsers and mobile devices, reducing reported display issues by 20%.
- Used **Git and GitHub** for version control and collaborative development workflows.
- Wrote clean, reusable, well-structured code following frontend best practices.
- Leveraged AI-assisted tooling, including **ChatGPT, Claude, Claude Code, GitHub Copilot, and V0**, to accelerate development and debugging.

PROJECTS

AI-Powered Car Marketplace

- Built a full-stack AI-powered car marketplace using **Next.js (App Router), Supabase (PostgreSQL), Prisma, and Clerk Authentication**.
- Implemented AI-powered image analysis, advanced search, dynamic filtering, favorites, and shareable URL-based search using query parameters.
- Built car listings, detailed vehicle pages, an EMI calculator, and a complete test-drive booking system with **React Hook Form** and **Zod**.
- Created an admin dashboard with inventory management, analytics, booking management, featured listings, and role-based access control (RBAC).
- Built reusable UI components using **Tailwind CSS** and **Shadcn UI**, optimizing performance with **Next.js Server Components**.

Social Chat Web App

- Built a real-time, multi-room anonymous chat application with user-based messaging.
- Implemented bidirectional, event-driven communication using **Socket.io** with WebSocket technology for low-latency messaging.
- Built RESTful backend services using **Node.js** and **Express.js**, handling client-server communication and event handling.
- Integrated room management, message broadcasting, user join/leave events, and timestamp formatting using **Moment.js**.
- **Tech Stack:** Node.js, Express.js, Socket.io, JavaScript, HTML5, CSS3, Moment.js, Git, GitHub.

EDUCATION

BE Electronics and Telecommunication

2018 – 2023

Pune Vidyarthi Griha College of Engineering and Technology, Pune

GPA: 8.55/10

Higher Secondary School Certificate

2016 – 2017

Kendriya Vidyalaya No.1, Pune

Percentage: 74.4%
